You will need the following:

- **a** 35” x 42” WOF
- **b** 35” x 42” WOF
- **c** 18” x 42” WOF
- **d** 10” x 42” WOF
- **e** 31” x 42” WOF

Cut seven 4 7/8” x 42” WOF strips from fabric. Then cut fifty 4 7/8” x 4 7/8” squares from the seven strips.

Cut seven 4 7/8” x 42” WOF strips from fabric. Then cut fifty 4 7/8” x 4 7/8” squares from the seven strips.

Cut seven 2 1/2” x 42” WOF strips from fabric. Then cut one hundred 2 1/2” x 2 1/2” squares from the five strips.

Cut two 2 1/2” x 42” WOF strips from fabric. Then cut twenty five 2 1/2” x 2 1/2” squares from the two strips.

Cut seven 2 1/2” x 42” WOF strips from fabric. Then cut one hundreded 2 1/2” x 2 1/2” squares from the five strips. Also cut one 12 1/2” x 42” WOF for binding your quilt.

You will need approximately 1 3/4 YD or 135” for backing.

Putting together your half square triangles:

- **a**
- **b**

Take one each from a & b fabric 4 7/8” x 4 7/8” squares. Place right sides together.

Draw a diagonal line from corner to corner and sew 1/4” seam on either side of the line. Once both seam are sewn cut along the center line. Press seams open. Trim off excess. Block measures 4 1/2” x 4 1/2”.

Complete this process till you have all 100 half square triangle blocks.

For each quilt blocks you will need the following:

- **a+b**
- **c**
- **d**
- **e**

**step 1:** Take one (c) block and one (d) place right sides together. Sew 1/4” seam down one edge. Press seam to one side. Do this for the remainder c+d squares.

**step 2:** Take one (e) and one of the c+d already joined blocks. Lining up with (c). Place right sides together sew 1/4” seam across the edge. Press seam to one side. Do this 24 more times till all the (e) blocks are attached.

**step 3:** Take one half square triangle block and one of the joined (c+d) blocks. Lining up with the right side edge. Place right sides together. Sew 1/4” seam along that edge. Press seam to one side.

Note: The direction of each half square triangles when putting your blocks together.
step 4: Left side of block.
Take one (c+d+e) block. Line that at the bottom edge of your block. Place right sides together. Sew 1/4” seam along that edge. Press seam to one side.

step 5: Right side of block.
Take one half square triangle block and one of the joined (c+d) blocks. Lining up with bottom edge. Place right sides together. Sew 1/4” seam along that edge. Press seam to one side.

note:
The direction of each half square triangles when putting your blocks together.

step 6: Top row of block.
Take blocks from step 4 and step 5. Placing right sides together with bottom edge. Place right sides together. Sew 1/4” seam along that edge. Press seam to one side.

step 7: Bottom of block.
Take one half square triangle block and one of the joined (c+d) blocks. Placing right sides together with bottom edge. Place right sides together. Sew 1/4” seam along that edge. Do the same for the remaining half square triangle. Press seam to one side.

step 8: Take blocks from step 6 and step 7. Placing right sides together with bottom edge. Place right sides together. Sew 1/4” along the raw edge. Press seam to one side. Finished size of this block is 10 1/2” square.

Repeat steps 1 to 8 till all 25 blocks are completed.

step 9: Take 2 completed blocks from step 8. Placing right sides together. Sew 1/4” seam down the raw edge. Press seams to one side. Countinue till you have a total of five blocks joined. This is your first row. Repeat step 9 till you have 5 rows.
step 10: Once rows 1-5 are complete you are now ready to join your rows. Placing right sides together. Sew 1/4" seam along the raw edge. Repeat for each of the rows. Give your seams a final press.

You now have a finished quilt top of 50 1/2" x 50 1/2".
Approximate fabric requirements for backing: 1 3/4 YD or 135".
Cut two pieces from backing fabric at least 60 1/2 x 42". Join with a 1/2" seam.

Quilting options:
Option 1
Once you have joined your backing fabric place it on a flat surface facing wrong side up. Smooth out any wrinkles before placing the desired batting on top of the backing fabric.
Lastly place your quilt top with the right side facing you smooth out any wrinkles in the fabric. Using quilters pins, pin all three layers together. You are now ready to quilt the layers together using your desired pattern.

Option 2
Some quilters choose to have this done by a professional and you can drop off your three layers and have them put it together for you.

Once you have completed this stage of the quilt you are ready to attach the binding.
Joining the binding:
From your 12 1/2” x 42” WOF binding fabric
cut 5 strips 2 1/2” x 42” WOF binding fabric.
Line up edges of binding strips with right sides together.
Draw a line diagonally across fabric from corner to corner.
Pin in place and sew along this line. Trim off excess fabric
making sure to allow for a 1/4” seam.
Continue this process till all binding strips are joined.
You are now ready to attach the binding.
Pressing seams open.

With the right side of quilt facing you join binding to finished quilt.

Starting at the centre of one side of the quilt. Pin binding to raw edges of
your quilt leaving 10” of your binding unstitched. Sew along the
raw edge with 1/4” seam stopping 1/4” from the first corner and back stitch.

To mitre your corners fold your binding up at a 45° angle. Fold your
binding back down toward the next sides raw edge pin in place. Starting
with a backstitch continue along that side stopping 1/4” from the next
corner and backstitch. Following the same instructions shown in the
diagram to mitre your corners. Continue this process around each
corner of your quilt stopping 10” from where you started.

When joining ends you will need to lay the
top flat away from your machine.
Bring one side of your binding to meet the
other, overlap one side by 2 1/2”
(the same width of your binding).
Trim off any excess.

Open ends with right sides together at a right
angle. Pin in place, draw a line from corner to
corner. Check you haven’t twisted the binding
before you sew the seam. Trim 1/4” from that
seam and press open. Stitch the rest of the
binding in place. Press the binding away from
the quilt top.

Turning your quilt over to the back. Flip the
binding over the edge making sure to cover
your stitching. Pin in place and hand stitch
the binding to the backing fabric.
